ABOUT ME

Passionate about the intersection of design, art, and technology, my strength lies in creating digital experiences that combine functionality with aesthetics. With a solid foundation in programming and a strong focus on visual design, I strive to develop products and applications that not only solve problems but also inspire users. My goal is to bring creativity, technical precision, and innovative vision to every project, turning ideas into memorable digital solutions.

EXPERIENCE

Full Stack Developer – Professional Internship   **July 2025 - Present**
RST Health - Mendoza, Argentina

- Design and implement new backend and frontend features, ensuring robustness and usability.
- Analyze and understand technical and functional requirements to propose effective solutions.
- Research technologies and competitors, delivering clear and structured reports to support decision-making.
- Develop and integrate user interfaces, leveraging AI to streamline visual creation processes.
- Contribute to business and architecture decisions, providing input on project structure and user experience.
